

**Children of God - Evolvement - Universal Love - The Return of Jesus -  
Mans Understanding of God.**

**Macello:** God bless you.

**All:** God bless you Macello.

**Macello:** Once more we meet with love and joy in our hearts bringing into our being the love of God. I know there is many questions in your hearts and I know also as we progress there is going to be a deepening of your understanding and therefore a deepening of the level of your questioning. I want this to be so, it is not enough just to flip over the pages of your holy book for this you have done all your lives and many of the stories have been told and understood in so many ways, but what we are wanting to do is to help you reach into your hearts and understand the depth of the inner truth of life here on this plane. How can you hope to extend yourselves into the Fathers kingdom and say, I have learnt my many lessons, if we have not taken this opportunity as mankind should, to reach deep down into the understanding and so ultimately know in your hearts that you are indeed children of God and that there is born of this understanding a true brotherhood of man and a sisterhood. One is no more nor no less than the other, you are all children of God whatever you are as we said the last time I spoke with you, all things are one in the site of God and I want you slowly and gently to progress along your pathway and I want you to put these words into this writing you are making so you can share these things of your heart, not just of Macello's heart but of your own hearts, with mankind.

Have no fear for what is written for what will be written will be truth and will be understood. I am talking from my heart and I want to know and the world at large wants to know that you also are talking from your hearts and those things you say to Macello and to Brother Gustus Emmanuel and later on perhaps, to Silver Waters and Kim Su San who are about to make a return into your midst when time permits, that these also are speaking a truth, are speaking a philosophy of God among men. Consider therefore these things which you ask Macello, are they things which if you took the trouble you could find the answer for in your own heart or if you turn the pages of a book or if you look for deeper understanding of your holy book or are they questions which truly move in your need to understand and bring forward a need to understand. Consider these things that we will talk together in love and harmony of the many things, which God has ordained in his love and in his wisdom that man should strive to come to know and to learn of himself, so he may prepare for himself a pathway into his kingdom, uninhibited with the fear of having not learnt. You understand what I am saying to you?

**Brother John & Brother Ken (El Papari):** Yes.

**Macello:** Are you understanding Brother John?

**Brother John:** Yes bless you.

**Macello:** So would you like to talk with Macello now Brother John?

**Brother John:** What are we to understand by the phrase "Jesus Christ Son of God" Macello?

**Macello:** Exactly what it says Brother John. I could say to you, Brother John Son of God, I could say Sister Valerie Daughter of God. Jesus, as we spoke of before, was a man, he was an evolved man he had evolved so deeply and had come into the love and the arms

of God and was chosen of him in order he should fulfil his task on this Earth. You could say the same thing of the Prophets, you could say this of Moses you could say this of Ezekiel of Isaac of Jacob of Jonah, of all these wonderful beautiful Prophets, children of God and if you are a child of God then God is your Father and so it follows you are his son. You understand this Brother John?

**Brother John:** Yes, you are speaking of him no more than the highest evolved spirit that the spheres have known.

**Maccello:** The master Jesus was chosen of God because, as I have said, he had evolved, he had reached this state whereby he was looked upon with joy by God the Father and so it was he chose the spirit of Christ, of Jesus, to touch this plane through the blessed womb of Mary the Madonna. Si he was evolved but also because it was God's purpose that his laws should be made manifest in man not by word of mouth but by example, by a living example, Jesus was blessed of God in order that he would carry out this chosen task. And is it not truly understood God new his son well and he chose him well and his task was fulfilled. Does this make you happy?

**Brother John:** Yes.

**Maccello:** Is anyone else would wish to talk with Maccello on this subject?

**Brother Ken (El Papari):** Yes Maccello I'd like to ask a question. With all this filth and degradation that's going on all over the world, especially in the land where the master walked, is the world evolving as it should?

**Maccello:** The world, El Papari, is evolving according to man and according to man's laws. The understanding of the God power on this Earth plane is increasing but unfortunately, as I was speaking of the last time I spoke with you, there is always a foolish one who will create these things which destroy and deprave and alienate men from God. He gave man everything he needed to evolve, he gave man every bit of understanding, he gave him reason, he gave him thought, he gave him voice, he gave him so many things, much more than the animal and the creature kingdom of this world in order he could evolve, man has exercised his own freewill in this and he has chosen his own pathway. God has not chosen this pathway for them they are if you wish, today's comparison to the children of Israel who created the things of the Earth for themselves because they were tired of waiting and all they had to do was look within their hearts as Aaron tried to tell them, 'be strong, believe, he will return, he has not forsaken,' but many are they on this Earth plane who like the children of Israel will not be taught that the Father has not forsaken them and so they have exercised their freewill and chosen to do all those things which are not of the law of God and he's understood also by the Father that many of those who hold a high position within the priesthood are among those who concern themselves with vengeance and incitement to violence and destruction and irreverent thinking, thinking which is adverse to the law of God and he knows their name, he knows their task and he knows their mark upon this Earth.

But I want you to understand El Papari, the love of God through those such as yourselves gathered here is slowly and very gently advancing into the hearts of men, not only in what you call the Christian teaching but in the teachings of the many Prophets in other parts of this world according to their tongues and cultures and he is reaching understanding within them that they will come closer to God and there is coming a time when man will love his brother and turn aside from violence, just as God put upon this Earth plane a living example of love and joy, of the magnificence of love and it's abundant gifts, so there is upon this Earth plane a living example of evil created by man himself and man again is left

now with a choice, does he wish to live in this evil way or does he wish to turn aside and walk his pathway to God? The Christian way of life is indeed advancing, slowly, very gently, but most assuredly, it will come. Is this answer for your question?

**Brother Ken (El Papari):** Yes thank you very much, thank you.

**Maccello:** Who else will talk with Maccello?

**Brother Christopher:** I'd like to ask a question Maccello. God put on this Earth Jesus Christ to show the ways of God he also sort of stopped man degrading man as it were from degenerating to a level below animal and it has been said that Jesus will return and you mentioned it briefly just now, is that the case that such a man as Jesus will be on this Earth again?

**Maccello:** I like this question; it's wonderful you are talking of these things. The spirit of Christ and the love of God has never left this Earth plane and it never will and there will come from time to time those who are chosen of God to come to the fore and preach his word and I have no doubt in my heart that they also will meet the same cruel fate as did the master Jesus. You have one perfect example in this day and age in the one Luther King. He was a man of God, he was a man gifted with the spirit of God and all his love, he spoke from his heart, he gave everything, which there was to give to man. He told him to forgive and even when he said to them if you are placed in a prison cell do not condemn, do not become such as they but go into this prison cell and tell yourself by the time I come out of here I will have changed the whole image of this prison with love and with the power of God. He was a man destined, destined to walk his pathway according to the law and will of God to carry his word throughout this world, in many ways with which it is done today and he will never, never be forgotten and always his word will be remembered in the hearts of generations to come of his own kind, "I had a dream". When this foolish one, this Judas of today, took his life so brutally and suddenly he fulfilled that dream because the words of this one will live in the hearts of all people knowing that he was destroyed by man's foolishness and man's stupidity and blindness just as was the master Christ.

And there will come many more in just such a way from all nations of men, not just from one kind, you will find these people have a reason all over the world during your lifetime. I will tell of another, I will tell of Mahatma Gandhiji; he was a man of God, he was a man of peace, he was a man who only wanted love on this Earth plane, he wanted his brother to love his brother, he wanted one nation to love another nation and if it meant he had to rebel in part against another nation in order to make them also see that he meant no harm, that he was not what they said he was, he was not a useless peasant and neither were his people. As Christ and his word had to struggle against the Roman Empire Mahatma Gandhiji struggled with British Empire and tried to make them understand, leave us in peace to love, to cherish one another, not just here in this land, all over the world. Again, his life was removed by the stupidity of man in much the same way was his later brother, Luther King. And there will come many more Christopher, watch and listen and you will know them by their voice, you will know them for their love and you will know them because God is in their hearts. Is this answer for your question?

**Brother Christopher:** Yes thank you very much Maccello.

**Maccello:** Who else will talk with Maccello on this subject?

**Sister Valerie:** Maccello may I ask from the stories you've just told us does this mean in our bible it says, "O God so loved the world that he sent his only son Jesus Christ", can we assume now that that is a misinterpretation and a mistake in the translations because lots

of Christians, lots of people will say that the church tells us that Christ is the only Son of God? In the stories you tell us everybody is the son or daughter, every living soul, so does that mean that our bible is wrong? And then there's Muhammad who, it is said in the Qur'an that God has no children, God can not produce a child, a man or a woman, that God is a complete entity in his own right and it can not be handed down to mere human beings. Is this the wrong interpretation and the wrong translations that have confused it?

**Maccello:** Let us take this first point you ask. As I have told you, as in the story of the birth of man, God did not write this bible.

**Sister Valerie:** So that is wrong that isn't the religious ...

**Maccello:** I ask you to consider what you have just said, God also said when Christ was baptised, this, this is my beloved Son in whom I am well pleased, he did not say this is my only begotten Son in whom I am well pleased as is written there, so as I have said earlier, you are a child of God. If this is so then he is your Father and if he is your Father you are his daughter, as all of you are daughters and sons of God. You understand this?

**Sister Valerie:** Yes I do.

**Maccello:** Is this answer for your question?

**Sister Valerie:** Thank you.

**Maccello:** Which one next were you saying to me?

**Sister Valerie:** Well Muhammad said in the Qur'an, in his teachings he said that God was an entity on his own and he had no children and this is one of the things that has caused a lot of conflict between the Islamic faith and the Christian faith. So from what you have said can we say that the Qur'an is also wrong? It's these little bits and pieces that create all the bad feeling then the fighting and the arguing.

**Maccello:** This causes trouble in your heart. God is one spirit, this is so and you are a spirit, you are a part of this God power, which is upon this Earth Plane, these teachings you speak of, I have said before, worship your God however you conceive him to be. In the lands of Silver Waters for instance, they see their God Manitou as a great white warrior Father, in the lands of Kim Su San they see him as a Buddha who is the Father of all. It is not for your understanding, the book of Qur'an; it's for the understanding of those of that faith and of that culture, God interprets his law according to the cultures of man and he interprets his image according to the way they can identify best with this. So this sets up, as you have said, quite truly perhaps, a barrier between the one walk of life and another but the Father in his wisdom has placed these things here in fervent prayer and hope that man will search his heart and eventually find the truth and the proof of his love by allowing man to see God however he may conceive him to be in his heart.

Do not concern yourselves too much with Muhammadan Qur'an; the Qur'an is for this culture and for this way of life as was Muhammad, but you see, whatever man conceives God to be, the one great important and most beautiful thing of all this, evolves that he is a God of love, he is a creator of all things and the Father of mankind and it is this love which we have for him which one day will bridge over these misunderstandings and misinterpretations, which only man alone has put there, then we will come to a universal truth and a universal understanding one with another. There is many things written in your holy book, as you are fast coming to discover, which God did not write, Christ did not write them, man wrote them. God did not write the Qur'an, man wrote the Qur'an, Muhammad never wrote the Qur'an man wrote these things.

And because some man somewhere in the distant past of time felt in his heart that he wanted to separate his people from the Christian way of life and because a Christian wanted to separate his people from the Muhammad way of life, the Islam way, they concocted many stories knowing they would conflict and they do this today, even today they have not learnt, still they do it and still they will go on doing this thing creating confusion and misunderstanding in the hearts of men and each time they will blame the Prophets. Did not Christ say, as Brother John read to you this night, I have not come to destroy the law or the Prophets, not the law of the Prophets but the law or the Prophets, but I have come to fulfil and he was teaching in his lifetime a universal love. He did not want Jew to be against Christian, he did not want Christian and Jew to be against Islam he wanted them to love one another as he has loved us and man has created these laws for himself and he has created divisions among himself. Has he not said also, that father will rise up against son and the son will rise up against his brother and likewise has this not become so because they will not agree?

They cannot find it in their hearts to accept the truth of the universal love of God for all mankind where ever he originates from, whatever his destiny must be, the love of God the love of Christ, the love of a Christian, the love of Buddha, the love of Tao, the love of Islam, of Muhammad, of all these Prophets which have walked the Earth before you. It's a universal love placed upon this Earth Plane of yours that man may take of it and create of it what he will and this he has done and in so doing, because of his jealousy one with another, he has created confusion in the hearts of all who believe. And so this confusion will go on until one day man will once again come to understand, as I have told you before, as I have heard Brother Brian say this night, I am a child of God and this is the simple answer to it all. I am no more no less than a child of God whether it is in this world or the next, or the next, or the next or on this plane be it as it is and no one, no one on this Earth Plane or on any other planes of awareness can alter this. You are a child of God create within your heart whatever truth whatever love whatever joy this holds manifest for you and accept your fellow men for who they are and what they are and not for what those in past years have decided in their divisions, one against another, to create in the hearts of men. You understand this Sister Valerie?

**Sister Valerie:** Yes Maccello I do thank you.

**Maccello:** In the very beginning this work is being made in the memory and love of Patricia Anne. You understand this?

**Sister Valerie:** Yes Maccello.

**Maccello:** This is because she sleeps and in her lifetime she left a message, which we are so lovingly trying to portray to all of you, be of love to one another and let this love be a natural love unaffected with sanctimony and with dogma or creed, allow it to become a true and perfect love. This is the message we wanted to relate to mankind and so it is that we wish that this work is dedicated to the love and the memory of Patricia Anne. Is this understood?

**Brother Ken (El Papari) & Sister Valerie:** Yes very much so, yes Maccello.

**Maccello:** Who else will talk now with Maccello? Is this make you happy Brother John?

**Brother John:** Yes thank you.

**Macello:** Please do not lose sight of this, it is our wish and is, I am quite sure, the wish of all gathered here. Keep it in your hearts and fulfil this and we will do everything which God will permit us to do to fulfil that which you seek. Is this make you happy now?

**Brother Ken (El Papari):** Yes lovely.

**Macello:** Before I go is anyone else wish to remove from their minds anything which may trouble them?

**Brother Christopher:** Do you have time to give us spirits interpretation of the Ten Commandments?

**Macello:** Let me just say for us the Ten Commandments is what it was intended to be for man, the Law of God designed to create eternal love. Is this make you happy Christopher?

**Brother Christopher:** Well I would like the full explanation but I'll make that do for now.

**Macello:** Time for me now is coming very close, Brother Gustus may also wish to talk to you on this, is this make you happy?

**Brother Christopher:** Yes certainly thank you.

**Macello:** Are you not his apprentice now?

**Brother Christopher:** Yes I am.

**Macello:** So it is I must leave you and I have loved every moment of being here with you and I will say this in parting, for I have listened closely to your gathering words and the little small talk you make, if you want to fill this room with love and if you want to unite and hold one another then do it with your aura and then you will find you will blend in perfect love. Do you understand this?

**All:** Yes.

**Macello:** And right in the centre just for good measure will be the love and the power of God. God bless.

**All:** God bless you Macello.

### **Brother Gustus Emmanuel**

**Gustus:** God bless you my children.

**All:** God bless you Gustus.

**Gustus:** May the love of the Father and of the Son and of the Holy Ghost rest and remain with you always, cleanse your hearts and fulfil your being. You have turned over many, many questions and many fears, many doubts. All these removed simply by knowing that all these many teachings across your world, from whatever walk of life, whatever faith or creed, bring to you the same message always. A message of hope of love of peace, a message of God's awareness of man, a message of his need for your awareness of him, a message of love of truth and of forgiveness. You must be always a truth unto yourselves; you must search and find within your hearts your own peace, the formulation of your own love of God. Has the Father not said through his Son Jesus Christ, be still and know that I am God. In this short lesson he sends is he not asking you to be still in your hearts, to be still in your minds and feel his love within him and within you.

And when we know that God is here, when we know that he is in our hearts there is not a feeling of strength and power and dominance and mastery of all things and understandings, there is simply a gentle humble acceptance of all things. And in this acceptance of all things are you not letting God enter into your hearts and so growing in your own spiritual progression and truth. Are you not becoming a truth unto yourselves, as we mentioned before. Turn with you and be blessed, blessed in the sense that you have received the love of God into your hearts and moreover, received the love of your fellow men into your hearts that you may teach those things which are of you, those things which are of God and by doing this is he not burning into your heart and inscribing into your heart all those things he commanded of you, thou shalt love the Lord thy God. If you do these things and keep his commandments surely he will do these things for you also and he will keep for himself the commandments that you write in your hearts concerning yourselves, concerning your growth, and he will know you by the measure of their love and of the depths of their truth and of the grace of your being. Take his words, love them, love him, appraise them, appraise him and he will love you likewise and with that love you will grow to embrace all mankind. I believe there was a question asked of me. Who will ask this question?

**Brother Christopher:** Have we got time for spirits interpretation of the Ten Commandments?

**Gustus:** My son, these Ten Commandments of which you speak, they are the Law of God and to withhold within your heart the Law of God is a blessed gift. Man will interpretate these Commandments in so many ways according to his own needs and I say to you, first go to your Father, offer unto him those things, which are his, offer unto him the testimonies of life and all that life holds for you. I will speak with you more on this and I will teach you part by part and to keep his Commandments is to keep his Holy Laws and to keep his Holy Laws is to embrace your fellow men as God will embrace you. Will this suffice in your heart for the time being my son?

**Brother Christopher:** Yes thank you very much Gustus.

**Gustus:** Brother John.

**Brother John:** Bless you.

**Gustus:** I am with you at this time and I know the conflicts which have been in your heart these past days and I know the struggle that there is laying within you concerning your truths and the truths that those who inflict their laws upon you.

**Brother John:** Um.

**Gustus:** Forgive them my son for we are your strength and the Father knows the measure of your love, I shall be at your side when you speak of the resurrection.

**Brother John:** Yes God bless you.

**Gustus:** When you repeat these words, I am the life and the resurrection O Lord; I will speak in your heart.

**Brother John:** Yes thank you God bless you. I shall remember.

**Gustus:** I shall know, I shall be with you; I shall speak on your behalf in your heart. Do you understand this my son?

**Brother John:** Yes I do indeed, thank you for your help.

**Gustus:** Fulfil your task, fulfil your task, we were purged by many my son and still we know perjury goes on especially among the Priesthood. Cleanse your own thinking, be pure in your intent and we will be in your heart my son. Let us pray.

And Christ said unto his Father, Father forgive them, and the father forgave all men their sins at that time just for a moment. So let us say in our hearts as we talk with the Lord our God a prayer for forgiveness for those with lesser understanding of his love. O Lord it is to our joy and eternal growth that we among these thy children on this Earth Plane together have come to a glorious understanding of Christ's message among men, I am the way and the truth and the light and who so ever shall beleiveth in me though he were yet dead, yet shall he live. O Lord our God through thy grace and love we have come to witness and to understand the law of being, the law of grace and the law of all thy children, receive therefore O Lord, our eternal joy and blessing for the truth that thou has laid before us and made manifest unto us many times here in this room and will do so many, many more times we pray thee to come. We are blessed O Father in the realization that thy love is the be tolerant force of all things and through thy grace and mercy we shall receive of the Holy Spirit those things which thou has ordained man should receive through thy love. O Lord lay thy hand upon these thy children, appraise them and bless them, teach them and enlighten them and enrichen them, be their footsteps O Lord that they may gently place their own within and walk thy pathway in love, in joy and in peace. May the love of the Father and of the Son and of the Holy Spirit be upon you, may his light be made to shine upon you and within you and all about, through the name of the Father and of the Son and of the Holy Ghost and through the name of our Lord Jesus Christ. Amen.

**All:** Amen.
