

Compact Disk's and DVD's

The original recording of each teaching is between 30mb and 66mb, these are very large files to download from the Internet even if you have a fast broadband connection. We would be pleased to record each chapter onto one compact disk, or more files onto a DVD, complete with printed transcripts, to enable those who do not have a computer but do have a CD player to listen to the teachings, read them into their hearts and let the true light of God shine upon them. Please help anyone of a like mind who seeks to learn and discover within themselves these truths, by sending an Email on their behalf.

WE ARE SORRY, THIS SERVICE IS TEMPORARILY SUSPENDED.

The teachings downloaded from the Internet are always free but we can only provide a CD and transcripts etc to you for what the cost is to The Maccello Foundation. With a need to keep things simple, no automatic Internet payment system has been adopted so we ask you to contact us first by email with details of what you require, complete with your postal mailing address and we will then contact you.

Thank you.
